POWWEB
THE PERFECT HOSTING SOLUTION™

Green Site: waldotheclown.com
Certified by PowWeb

PowWeb Green Certificate

PowWeb, an EPA Green Power Partner, certifies that waldotheclown.com is powered by 100% wind energy. That means the servers, data centers and offices supporting waldotheclown.com are powered by renewable energy.

PowWeb, an EPA Green Power Partner, certifies that waldotheclown.com is completely generated by wind energy. For every KWH used to run sites such as yourdomain.com, PowWeb purchases twice that amount of wind energy in the form of Renewable Energy Certificates (RECs).

Measuring the Environmental Impact

By hosting with PowWeb, waldotheclown.com is helping prevent the release of 3,764 metric tons of carbon into the atmosphere annually. Our company's energy efficiency is equivalent to planting 803 acres of trees, or taking 738 cars off the road.

About PowWeb

PowWeb provides shared web hosting solutions for individuals and small to medium sized businesses looking for an affordable, reliable web hosting option. PowWeb offers various site builder tools, marketing services and SEO solutions. For additional information, visit www.powweb.com.
